* If you are enrolled in our [Options Order Flow Rebate Program](#) ("Program"), you will receive a rebate for every stock or ETF options trade to help reduce your trading costs. Your rebate will range from 16% to 50% of our order flow revenue for each stock or ETF options trade you complete, depending on when you enrolled in the Program and your options trading volume for the current and prior month. See full Program terms and rates [here](#). Rates subject to change without notice.

** Exchanges also charge Public Investing fees for index options trading, which we pass on to you to help cover our costs. See exchange fees for index options [here](#).

Margin Interest Rate:

The margin interest rates on margin accounts shall be as follows:

Margin / Debit Balance	Margin Interest Rate*
Up to \$10,000	FFTR + 5%
\$10,001 – \$50,000	FFTR + 4%
\$50,001 – \$250,000	FFTR + 2%
\$250,000 and above	FFTR + 1%

* For margin accounts, Public Investing charges a margin interest rate that varies depending on your margin/debit balance and the upper limit of the Federal Funds Target Range. This upper limit, which is defined as "FFTR" in the table above, is set by the Federal Reserve and is subject to change without notice. The formulas used to calculate the margin interest rates above are subject to change at Public Investing's discretion. For details on the margin interest computations and charges, please see the "Margin Credit Terms & Policies" section of the [Margin Disclosure Statement](#). As of December 19, 2024, the FFTR is 4.50% but may change at any time without notice via this Fee Schedule or otherwise.
