

PUBLIC: FEE SCHEDULE

US-listed Stocks & ETFs, OTC Stocks and Options:

Fees charged by Public Investing are listed below. Regulatory agencies charge us fees for certain trades, which we pass onto you; see the "[Regulatory Trading Fees](#)" section below. If you are investing in stocks and ETFs as part of an Investing Plan, the fees described in the "[Investment Plans](#)" section below apply instead.

Fee Type	Fee Amount
US-listed stocks and ETFs - trades during regular market hours (9:30 AM – 4:00 PM EST)	Premium Members: \$0 Non-Premium Members: \$0
US-listed stocks and ETFs - trades during extended market hours (4:00 AM – 9:30 AM & 4:00 PM – 8:00 PM EST)	Premium Members: \$0 Non-Premium Members: \$2.99 per trade
OTC stocks	Premium Members: \$0 Non-Premium Members: \$2.99 per trade
Options (Stocks & ETF's) *	Premium Members: \$0 Non-Premium Members: \$0
Options (Index Options) **	Premium Members: \$0.35 per contract Non-Premium Members: \$0.50 per contract

* If you are enrolled in our [Options Order Flow Rebate Program](#) ("Program"), you will receive a rebate for every stock or ETF options trade to help reduce your trading costs. Your rebate will range from 16% to 50% of our order flow revenue for each stock or ETF options trade you complete, depending on when you enrolled in the Program and your options trading volume for the current and prior month. See full Program terms and rates [here](#). Rates subject to change without notice.

** Exchanges also charge Public Investing fees for index options trading, which we pass on to you to help cover our costs. See exchange fees for index options [here](#).

Treasury Accounts:

Investment advisory services for Treasury Accounts* are provided by Public Advisors LLC ("Public Advisors"), an SEC-registered investment adviser. Public Advisors charges each customer an annual advisory fee that is tied to the net market value of their Treasury Account. Different rates are applied to different portions of the Treasury Account's assets, as described below:

Tier	Treasury Account Portfolio Value	Annual Advisory Fee
1	The first \$25,000	0.29%
2	The next \$75,000, up to \$100,000	0.24%
3	The next \$900,000, up to \$1,000,000	0.19%
4	The next \$4 million, up to \$5,000,000	0.14%
5	Assets over \$5,000,000	0.09%

For example, a Treasury Account that holds up to \$25,000 in Treasuries and cash will be charged the Tier 1 advisory fee. A Treasury Account with an aggregate value between \$25,001 and \$100,000 will be charged the Tier 1 fee on the first \$25,000 in assets and the Tier 2 fee on the balance of the assets. A Treasury Account with an aggregate value between \$100,001 and \$1 million will be charged the Tier 1 advisory fee on the first \$25,000 in assets, the Tier 2 fee on the next \$75,000 in assets, and the Tier 3 fee on the balance of the assets. And so on.

The advisory fee is charged on a monthly basis. Fees are calculated daily by multiplying the Treasury Account's closing balance by the applicable rate(s), and dividing by 365 (or by 366 in a leap year). Fees for a calendar month are the sum of the daily fee calculated during that month. The advisory fee is subject to change at any time with prior notice. Public Advisors reserves the right, at its sole discretion, to waive all or a portion of its advisory fee to certain customers. See [Form ADV Part 2A](#) for further details.

NOTE: Brokerage services for Treasury Accounts are provided by Public Investing, which will charge fees for such services, including but not limited to [mark-ups for Treasury Bond transactions](#). All such brokerage fees: (1) are found in the rest of this Fee Schedule; (2) are separate and distinct from the Advisory Fee; and (3) shall be borne by the customer.

* If you are investing in Treasury Bills through your separate account with Jiko Securities, then the [Jiko Account section](#) of this Fee Schedule shall apply rather than any of the fees described in this section.

Margin Interest Rate:

The margin interest rates on margin accounts shall be as follows:

Margin / Debit Balance	Margin Interest Rate*
Up to \$10,000	FFTR + 5%
\$10,001 – \$50,000	FFTR + 4%
\$50,001 – \$250,000	FFTR + 2%
\$250,000 and above	FFTR + 1%

* For margin accounts, Public Investing charges a margin interest rate that varies depending on your margin/debit balance and the upper limit of the Federal Funds Target Range. This upper limit, which is defined as “FFTR” in the table above, is set by the Federal Reserve and is subject to change without notice. The formulas used to calculate the margin interest rates above are subject to change at Public Investing’s discretion. For details on the margin interest computations and charges, please see the “Margin Credit Terms & Policies” section of the [Margin Disclosure Statement](#). As of February 1, 2025, the FFTR is 4.50% but may change at any time without notice via this Fee Schedule or otherwise.
